

## **IATFACS Post-Conference Workshops**

**Summer 2015**

### **Option 1: Sustainable Living: Repurposing Life!**

Join us in discovering just how easy it can be to live a sustainable life! We will look at creating housing, shopping and dining options that allow us to live more sustainably. As well as looking at how to incorporate these concepts into hands-on learning that is relevant and rigorous. As instructors of family living, this offering touches on many of our subjects including Adult & Teen Living, Personal Finance, Nutrition & Foods and Culinary, Interior Design, Leadership and others. Tours are included as well as a hands-on repurposing project.

### **Options 2: Google Classroom Organization!**

Come prepared with iPads, laptops, Chromebooks and all other technology to dig into next year's educational transformation to Google! Bring your file cabinet nuggets, thumb drive treasures and outdated ditto masters to this session to update and convert into your new Google Classroom! This is a working session and will not include tours but will mean that a lot of the work for your fall will be taken care of!
